Democrats in Campaign Text-Book Expose Absurdity of a Republican Claim. J

WAGES AND COST OF LIVING

Illustrations of Some Misleading "Averages" and Improper Balancing.

(From Our Regular Correspondent.)
WASHINGTON, D. C., September 19.—
The Republican claim that increase in wages has kept pace with the increase in cost of living, is heard every day, but its absolute faisity is perhaps more easily shown than is the untruth of any statement made these days by Republican spellbinders, and editorial writers. The Democratic campaign book, advance proofs of which are now accessible, devotes considerable space to refutation of this claim, and it is plain before a page is read that it was done with scientific completeness.

As a matter of plain fact, the great

page is read that the work was one of case and that it was 'done with scien-lific completeness.

As a matter of plain fact, the great increase in the cost of living in the past half decade, at least, has been so great that it has been feit in every home in the land. It is as easy to trace the increase in the cost of every article of common consumecost of every article of common consump-tion to the Republican policy of exorbi-tant tariffs, as to follow the course of the stream from the mountain spring on

For example, housewives know that For example, housewives know that hecause of the beef trust ment costs from 3 to 10 cents a pound more now figan it alld formerly; workingmen know that their clothing costs more because of Republican high tariff taxes; mechanics know that the tools of their trades cost more than they should, or would, but for a Republican high tariff, which shuts out legitimate foreign competition; business men know that the typewriter for which they have to pay \$100, costs only \$55 or \$60, when sold to the foreigner; railroad men know that steel rails are shipped to men know that steel rails are shipped to Jupan and sold for \$18 or \$30 a ton, while from American railroads the steel trust extorts \$23 a ton. It is plain, in short, that the Republican tariff system instead that the Republican tariff system instead of being devised for the protection of labor, as is falsely claimed, is designed for the purpose of enabling certain huge corporations, known as trusts, to bleed the American people. By pooling interests at home the trusts eliminate domestic competition, and foreign competition is impossible because of the high tariff taxes imposed by a Republican Congress, and collected by a Republican administration.

Convicted Out of Their Own Mouth.

The Republicans gravely announce that while the cost of living in the ten years ending in 1963, has increased 15.5 per cent. the increase in wages during the same period has been 18.5 per cent. or a net increase of 1.1 per cent. Even these figures are a severe commentary on the Republican boast that high tariff taxes benefit leber One and one-fieth per cent. publican boast that high tariff taxes benefit labor. One and one-tenth per cent, increase in wages in ten years, over and above the increase in the cost of living is surely not liberal, when it is remembered that in the past ten years new economies and new inventions have so increased the productiveness of labor that in all right and equity its wages should show a much larger gain. Yet, this is as much as the Republicans claim. The Democratic campaign book shows clearly that even this pitful 11 per cent, net increase in wages is humbug, and exists only in the minds of Republican politicians. Secretary Shaw and the Hon.

ists only in the minds of Republican politicians. Secretary Shaw and the Hon-Carroll D. Wright, United States commissioner of labor, have undertaken to supply figures to uphold the Republican contention, but fairminded men must admit that they failed utterly. Senator Fairbanks has also tried to explain away facts after the manner of the two gentlemen named, but his fallure has been even more pittable.

If two men make savings bank deposits,

If two men make savings bank deposits If two men make savings bank deposits, the one of 1999 and the other of \$1, the average deposit is \$500. Would the \$1 man be worth \$500 because of this average? By putting dried bugs, and a score of articles the average man never saw on the free list the Republicans point with pride to a tariff law that lets in more articles free of duty than were similarly admitted by a Democratic law. By pursuing this method Republican "experts" make it appear that the cost of living under Republican trusts and high tariff taxes has increased only 15.5 per cent.

Misleading "Averages."

To illustrate how misleading are these Republican "averages," suppose, for example, that the increase in the price of eggs has been 10 per cent., while the decrease in the price of nutnegs 14 per

this shows a decrease in the "average" cost of living, but of how much practical benefit would this be to a people to whom penefit would this be to a people to whom nutnegs are a prime necessity, and to whom nutnegs are almost valueless. The aver-age American consumes 17 dozen eggs in a year, for which he pays the average price of 20 cents a dozen, making his an-nual egg bill \$3.40 a year; an advance of 2 cents a dozen is an advance of 10 per, cent, in the cost of living so far as eggs are concerned. The average American are concerned. The average American consumes about 1-40th of a pound of nutconsumes a year, at an average price of 35 cents a pound, and his nutmeg bill is less than 1 cent a year. If the price of nutmegs falls to 30 cents that is equivalent to a decline of 14 per cent, in the cost of living, so far as nutmegs are concerned.

living has increased only a little more than 15 per cent.

The cost of living was nearly 7 per cent, higher in 1901 than during the period of 1800-1850. Commissioner Wright, who makes his figures suit the demands of the Republican campaign managers, includes pepper, of which the average American consumes 4 cents' worth a year, of the same relative importance in his tables of the cost of living, as coffee, of which the average American consumes \$1.50 worth every year. Improperly Balanced.

Not only are the items on which prices are quoted weighed with a regard to their importance as articles of sale or consumption, but the groups are improperly balanced with each other. This is proven by Mr. Wright's own words of March, 1902, published in an official report. On page 208 there is the following table showing the main group of family expenditures and their relative proportions as determined by the ascertained expenditures of a large number of families which were considered typical of the expenditures of the mass of the people:

This table shows that the average fam This table shows that the average family spends nearly three times as much for food as for clothing. In his table of relative prices, Mr. Wright quotes 53 articles of food and 70 for clothing. To be consistent he should either have quoted 185 articles of food or only 25 articles of clothing. The average family spends 7 times as much for food as for fuel and lighting. Mr. Wright quotes 12 differnt articles of fuel and lighting, and 53 of food. Either the 53 should have been 90, or the 13 only 8. or the 13 only 8.

The Military Inquiry.

The military court of inquiry, appointed by Acting-Governor Cunningham to invesalgate the conduct of the militia on guard gate the conduct of the militia on guard at the jail when Horace Maples, a negro, was lynched, to-day began taking evidence. Colonel T. S. Fraser, of Union Springs; Captain W. J. Vaiden, of Union-town, and Captain E. D. Smith, of Birmingham, compose the court.

Captain Robert L. Hay, of Company F. Lieutenant Thomas P. Hay and Second Sergeant Joseph Brock were the first witnesses examined.

According to the testimony of Captain Hay, he was to receive his orders from Sheriff Rodgers. Captain Hay testified that his pickets were posted on the stairway and that the sheriff had cautioned the soldlers not to allow any one to come up the stairway, and not to shoot until he ordered. After the mob had broken in the back door and started, they begged either to be allowed to shoot or to be ordered out of the building. In the meanime the mob was cailing to the sheriff and telling him that if he would surrender the negro the fire would be extinguished. The sheriff finally acceded to the wishes of the mob, at the same time ordering the militia out of the building.

Sergeant Brock substantiated the testimony of Captain Hay. Lieutenant Hay testified that he went to the assistance of a sentry and was cut off by the rush of the mob and could not get back to the jall.

Mr. Braxton has by his speech to-day, helped the Democratic party in the courty of Pulaski very much, and Mr. Wysor's prospects for election are much brighter than they were last week.

ers. He said:

"If the heartiness of Democrats manifested since my arrival here is any indication of the political condition, I would say that the Democratic outlook is excellent. I have just spent three days in Indiana and find Democratic affairs in that State in fine shape. I am also able to say that in New York, New Jersey, Connecticut and West Virginia and the Eist generally the prespect is such as to cheer the Democratic heart.

"The situation in New York is all that we could want," continued Mr. Taggart. "Indiana is in the best condition for Democratic victory, I have seen there since 1892, Bryan men, Hearst men and silver men are united with all other Democratin laboring for party triumph."

"Is Illinois, in your opinon, debatable ground?" the leader was asked.

"It is if the Democrats are harmonious," was the reply, "I am here to find out about that. I think things are progressing finely from what I have learned."

Replying to a question as to the truthfulness of the report that he had been practically supplanted as chairman, Mr. Taggart uttered an emphatic denial, saying that the national party leaders are working in the utmost harmony. M'CARREN READY

(By Associated Press.)

SARATOGA. N. Y., Sept. 19.—The majority of the 460 decegates who will constitute the Democratic State Convention, called to meet here at noon to-morrow, are in Saratoga. Since the arrival this morning of former Senator David B. Hill and State Senator Patrick H. McCarren and this afternoon of William F. Sheehan. August Belmont, former Senator Edward Murphy, Jr., and Charles F. Murphy, leader of Tammany Hall, conferences have been in progress almost constantly. The net result of to-day's developments is the selection of Duncan Campbell Lee, of Ithaca, to be permanent chairman of the convention, and former Denator George Raines, of Rochester, to be chairman of the Committee on Resolutions. Otherwise, according to the most authoritative information obtainable to-night, the situation stands us it stood last Thursday night, when Judge Parker left New York city, after his scries of conferences with various leaders, nothing having been announced as to the prospective candidates at that time.

Conferences will be held so that the names of various candidates who have been mentioned, may be weeded out, but it is thought probable that no final determination will be reached antil close upon the beginning of the second day's session, if indeed the adherents of the several leading candidates wo not find it necessary eventually to try out the strength of their forces in one or more ballots upon the floor of the convention. It is the general impression, however, that an agreement will be reached and that the question of the nomination for the governorship settled in conference so that only one name shall be presented to the convention and the nomination be unanimously made on the first ballot.

Talk of Shepard,

There is no alminution in the feeling which has been in evidence since the delegates began to gather, that unless some

ment, although no one in authority will admit that other than State considerations will influence the action of the convention. Those who hold to Mr. Shepard's nomination think that final conferences will eliminate all other candidates. There is this to be considered, that all fections in the State organization are in harmony with Judge Parker and would follow his wishes should he indicate them. But there was no indication to-day of the receipt of any such intimation. William F. Sheehan, who saw Judge Parker at Esopus yesterday, said this afternoon that he was not the bearer of any message from the presidential candidate. Senator McCarren to-day declared himself unalterably opposed to the nomination of Shepard, and announced without qualification that if Mr. Shepard was nominated it must be without the ald or consent of Kings county, for whose delegation he is believed to speak with authority. This slatement was made especially in connection with his urgent support of the candidacy of Comptroller Edward W. Grout, but he admitted that if a conference should agrae upon the name of John B. Stanchfield, of Elmira, Kings might concede the withdrawal of Grout's name.

Hint of Dark Horse.

Hint of Dark Horse.

Hint of Dark Horse.

From the hour of his arrival until late to-night the time of Charles W. Murphy was occupied by consultation with his immediate lieutenants and with some of the leaders in the State organization. There was a long conference between Chairman Cord Meyer, of the State Committee, and Mr. Murphy. Mr. Meyer has been selected to consult with Mr. Murphy concerning the situation as is especially affects New York city and generally the outcome of these conferences is the announcement that some differences have been arrangd. To-day there was an unofficial statement after the conference that Greater New York has been eliminated from the governorship equation and that some "up State" men, presumably a new man, would be selected.

Mr. Murphy's apparent opposition to the McClellan talk is due chiefly to his desire to retain the Mayor in his present position, his resignation from which to run for Governor would create political complications in Greater New York.
